

K-LOVE radio is very important to my family as well as other families I am associated with. It gives my children an alternative music to listen to that is void of questionable material that our kids really should not be subjected to at a young age. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, my family as well as others in the community would be subjected to offensive language and music with questionable content, which in turn would cause more of the children and youth begin acting out in response to this material. I believe that we need as much POSITIVE influence on the community as possible to cut down on the crime rate. K-LOVE is the most positive and encouraging radio station i have ever heard that doesnt include alot of talk in which the younger generation is not interested in. Afterall, the youth ARE our future! Thank you for your time.
